

Do you agree?

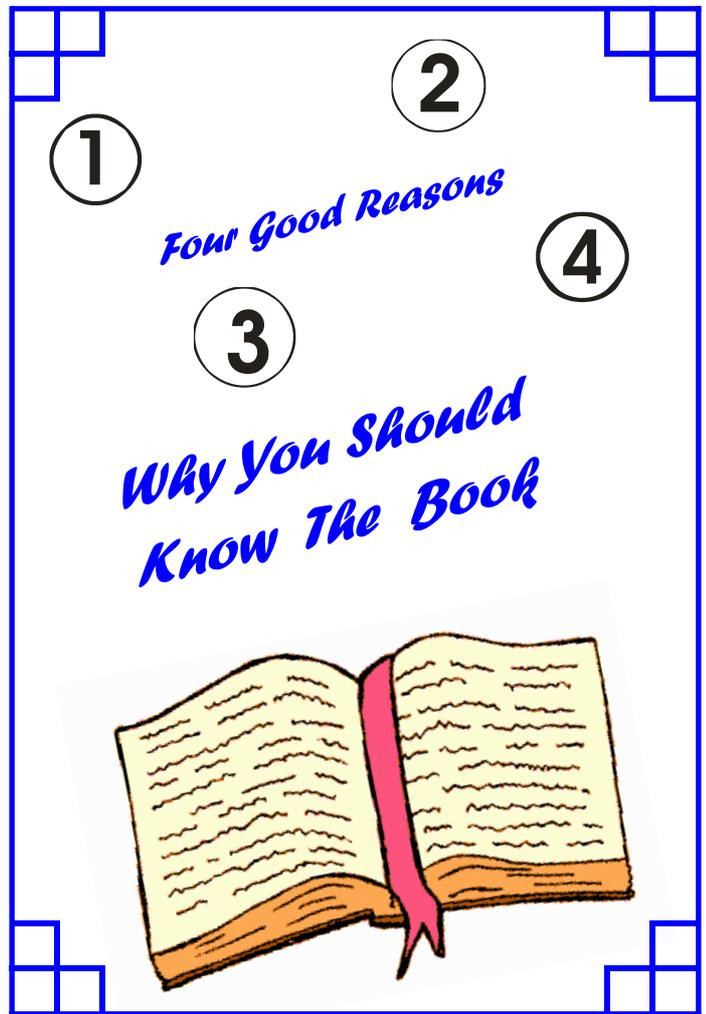

From all the great religious books in history, whether we think of the Qur'an, the Gita, or the saying of the Confucius, the Holy bible is the only book which provides such undisputable evidence of prophetic proclamations hundreds of years prior to the actual events in history. nobody, not even the devil himself, could have had such knowledge of God's plan in history.

The crucial question:

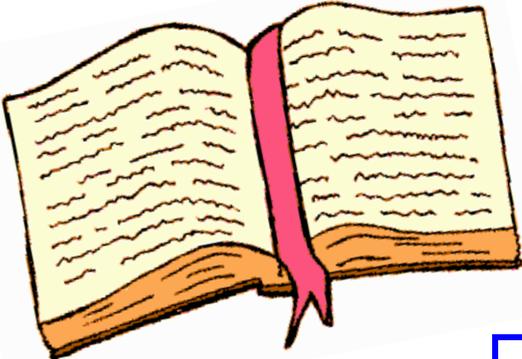

Seeing that the Bible is so unique, have you ever taken the trouble to read and consider its message for yourself? How can you rely on hearsay or the opinion of the other people, whether well-meaning or not, in a matter that concerns your eternal destiny?!

We invite you to write to us for a free copy of **LET THE BIBLE SPEAK FOR ITSELF** for more reasons why Christians believe the Holy Bible to be trustworthy and uncorrupted and to start your own journey into the Book. Write to:

Why You Should Know The Book

Reason No 1

If God has made His will known in a book, it surely must be the worst sin a person can commit, not to take any notice of what He has revealed in it.

Do you agree?

There is only one God. He loves people because we were created by Him and therefore He identifies with us. In other words: He wants us to understand how we can best live in perfect harmony with Him. How could we know? - Yes, you are right. He has written down His will for us in a book. It is **one** book. That's why it is so important to know it.

The crucial question: Do you know HIS BOOK?

Reason No 2

If the devil has any sense at all, he will try to keep people from getting to know God's Book.

Do you agree?

The devil is a real being who is actively opposed to God's plan for man. What better could he do than to keep YOU from reading God's Book! If he succeeds he can keep you ignorant of truly knowing your creator, confuse you through the ideas of other people around you and successfully keep you out of harmony with your Lord by just doing your own thing.

The crucial question:

Is Satan (Iblis) still succeeding in keeping you from reading God's Book?

Reason No 3

God has built into His Book some unmistakable evidence that this is truly in His Book so that man can know for sure and not be deceived.

Do you agree?

Obviously Satan will seek to deceive people by offering them other books which may have the appearance of divine revelation. However God will not allow Satan to confuse the truth with his corrupted books. Since God is truthful He will make the truth stand out clearly from error by giving unmistakable evidence that He Himself has spoken in His unique Book.

The crucial question:

Have you made sure that the books you are trusting as divine inspiration and as the guide back to God contains such unmistakable evidence of truth?

Reason No 4

This unmistakable evidence must be far greater than human reasoning, the opinion of one person or merely a miracle which every person experiences and explains in his own different way. It must be an objective evidence which all people can see and understand alike. **This evidence is divine prophesy and fulfillment.**
